GENERAL INFORMATION

You are a space attack pilot flying at death range over the gigantic star ship. Your mission while defending yourself against the never ending oncoming defense squadrons is to destroy the star ship with your cursor scope missiles. Watch out for the star ship's atomic cannons aimed at you.

Motion

Your fighter is controlled by the 8 directional lever of the joy-stick.

Laser Beam Gun

Laser beam gun is triggered with the fire button of the joy-stick. It can destroy the enemies' flying defense squadrons.

Double-Barreled Missile

Your missiles are triggered with the fire button of the joy-stick. They can destroy the fortress, cannons cell and shelters on the surface of the enemy star ship. The cross cursor scope which positions ahead of the fighter aims the missile firing position.
